

Organic Division Metals in Synthesis 2008

University Hall, University of Bath
Wednesday 15 October 2008

Including:

RSC Centenary Lecture

Professor Masakatsu Shibasaki

The University of Tokyo, Japan

Each year the RSC Centenary Lectureship is awarded to three non-UK scientists for the purpose of promoting interchange of chemists between Britain and overseas countries.

Professor Shibasaki won the award for his numerous seminal contributions to the discovery and development of asymmetric catalysts for organic synthesis.

Metals in Synthesis 2008

PROGRAMME

12:30 Arrivals, Poster Session and Light Lunch

14:00 **Professor Jonathan Williams**, University of Bath

14:30 **Dr Mike Willis**, University of Oxford

15:00 **Dr Paul Davies**, University of Birmingham

15:30 Tea/Coffee

16:00 **RSC Centenary Lecture**

Recent Progress in Asymmetric Two Centre Catalysis

Professor Masakatsu Shibasaki, The University of Tokyo, Japan

17:30 Poster Session continues with a Wine Reception

18:00 Award of poster prize

We would like to thank the following organisations for their support:

Make a nomination for an RSC Prize or Award

Reward excellence and dedication by making a nomination for an RSC Prize or Award.

The nomination procedure is simple with our easy to use online system at www.rsc.org/awards.

Nominations close on 31 January 2009.

Local organiser: John Fossey, University of Bath (j.fossey@bath.ac.uk)
